

THE WORLD LEADER IN STORAGE
MEDIA BARCODE LABELS

TRI-OPTIC

For nearly 30 years, Tri-Optic has been the world leader in Media Label Technology, offering T10000, LTO, 3480, 3592, 9840, DLT, SDLT, 8mm AIT, 4mm and Optical bar code labels. We continue to research and develop the newest technology for media bar code label printing in order to give you the highest quality media labels on the market. At Tri-Optic we know the importance of bar codes to your scalable tape library and have made it our business to manufacture only professional quality sequential bar coded labels. We have worked with the world's leading storage library manufacturers to create media bar code labels that meet and exceed their stringent standards.

We recognize that quality barcodes, accurate filing and easy readability is vital to speed data storage and retrieval, and through the use of proven color coding filing methods and Grade A bar code quality, Tri-Optic has maintained its position as the supplier of choice.

Tri-Optic specializes in:

- storage media barcode labels
- RFID-enabled media labels
- label attaching services
- storage media tape tracking

Tri-Optic prides itself on meeting the specifications of some of the world's largest OEM's. We have built many strong relationships with major tape library manufacturers in order to ensure we have the most reliable media labels on the market. Our bar code standards are so strict that from label to label there is less than .0381mm of difference between all elements. This accuracy is what has led to Tri-Optic being "The Leader in Media Label Technology."

Our labels are made on a superior stock and laminated for proper application and maximum life. Tri-Optic uses a non-reflective finish for minimal surface reflectivity and an accurate reading every time. We are so sure of the quality of our labels that we give them a lifetime guarantee.

QUALITY

Tri-Optic quality is unsurpassed in the industry. With strict standards and numerous quality checks along the way, Tri-Optic media labels are the industry leader. We have also tested all our labels for abrasion and adhesion meeting rigid specifications for both.

ACCURACY

Tri-Optic media labels are accurate to .127mm. Our labels are guaranteed for 100% readability. Tri-Optic media labels can meet and exceed the most stringent standards.

EXPERIENCED

Tri-Optic has proven itself with over 750 million data cartridge labels in use worldwide and a product line that covers more than 15 different removable media technologies. We have more than 17 years of experience and are the supplier of choice for the world's leading OEM's. Tri-Optic also holds U.S. and Foreign patents and has set the standard for high resolution, computer-generated bar codes.

RELIABLE

Tri-Optic reputation is based on reliability in service and quality. Our factory is capable of producing over 1 million labels per day and will meet or exceed your delivery expectations without compromising Tri-Optic quality.

THE TRI-OPTIC EDGE

- Tri-Optic offers the most complete range of media labeling options worldwide.
- Tri-Optic media label quality and accuracy is industry proven and 100% reliable.
- Tri-Optic believes that quality is critical to data management and in many ways represents one of the most important components of any media library.
- Tri-Optic labels are superior in quality, reliability, and accuracy.
- Tri-Optic uses proven processes and numerous quality checks to ensure that all labels meet or exceed the highest of standards.
- Tri-Optic colors and bar codes are quality checked many times along our process.
- Tri-Optic labels color and bar code consistency is one of our top priorities.
- Our bar codes read first time, every time.

TRI-OPTIC TO GO

Tri-Optic is very pleased to offer "TTG - Tri-OpticToGo" which is a capability by which partners have the ability to print Tri-Optic labels on site to the same stringent standards as they receive today from Tri-Optic. In this way, they can offer better lead times with same day local delivery and can cope with small label orders as easily as the larger ones. This capability uses a small number of key components which are "Tri-OpticToGo" label production software, a Printer, label stock, and card stock.

TO PLACE AN ORDER FOR OUR RFID LTO, T10K, AND 3592 DATA AND CLEANING LABELS, PLEASE CALL 888.438.8362, EMAIL US AT SUPPORT@TRI-OPTIC.COM, OR VISIT US AT WWW.TRI-OPTIC.COM
